Hi Marc,

Is it possible to meet with you to talk about the HP Resolution that MaHP has initiated? There has been a lot of propaganda coming from the other side that is creating a very unfortunate and toxic atmosphere. As the son of my father who escaped Nazi Europe (Czechoslovakia) in August 1938, I come from a background haunted by the holocaust. So I am very very familiar with this tragic issue which includes Israel/Palestine. The spiritual practice of Judaism does not include oppressing another people. The charge of anti Semitism against people like myself for being critical of the policies of the state of Israel just has no ounce of merit or truth.

I am a member of First Parish Church Cambridge and I understand that you are too. I know of at least one other member of our congregation who would also like to meet with you about this issue.

Thanks for your consideration and I look forward to hearing from you.
